PRINCE ALBERT, DEC. 7, 1902

ONE MAN POWER

When Mr. Cayley took upon him the leadership of an Executive Committee of the North-West Territories, it was believed he would do so fully and justly to every part of the Territory, and it was for this reason we were almost unanimous in our support of his going to the Territories. He is carrying out his mission in a manner which is not only fair but also efficient, and it is for this reason that we are so glad to see him in the Territories.

Three of the most prominent positions in connection with the immigration scheme inaugurated by Mr. Cayley, are the Executive Committee, the Immigration Bureau in Toronto, and the Immigration Bureau in the Territories. Mr. Cayley has been appointed to take charge of the Immigration Bureau in the Territories, and to have control of the North-West Territories who go east in the interests of immigration. Mr. Cayley has been appointed agent of the North-West Territories for the Western States, and Mr. Kelly, Ex-Mayor of Calgary, has been appointed Territorial Commissioner to the West. If this is a sample of the way in which Mr. Cayley intends to administer the affairs of the Territories, the account his regime comes to a close better. No undue influence should be given Calgary over other parts of the Territory. Can it be possible that the member for Prince Albert, a gentleman who is thoroughly consistent and honorable, is a party to such a one-sided scheme?

We cannot believe him. It is to be regretted that Mr. Cayley has to leave in the wake of Mr. Hamilton, by trying to run the whole ship himself without consulting his old guests, especially in all matters of importance. It may be possible that the gentleman who has been appointed to these important positions will deal equal justice to every part of the North-West, but even so, they do so, the principle is wrong.

One representative was quite sufficient from Calgary, and the other two should have been taken from some other parts of the Territories. There are just as efficient men in Edmonton, Regina, Moosemin, and other parts of the Territories as in Calgary. The straw shows in which way the wind blows, and Mayor Lucas of Calgary in his interview with newspaper reporters shows which way his influence will be directed as head immigration agent at Toronto. The following is from the Regina Leader:

"We are sorry to see that in the interview between reporters and Messrs. Cayley and Lucas, recently in Winnipeg, the immigration efforts made seem to be altogether in the direction of setting up north in Alberta. Mr. Hamilton had gone about the business it would we suppose have amounted to the something and he would have directed the stream of immigration into the MacLeod district. This illustrates the evils of the 'one man power' inaugurated by Mr. Hamilton. We do not want to be governed by one man. If we have an Executive we must have it representative of every part of the country and we hope that next session the Dominion Parliament will attend to this."

The October statement of Canada's foreign trade is encouraging as its predecessors. For the month our exports were \$391,238 greater than in October, 1891. For the four months of the new fiscal year of 1902-3 the exports were valued at \$53,604,000, against \$46,800,000 for the same period of last year—a gain of over \$6,800,000. This steady expansion indicates that our producers have no difficulty in disposing of their surplus, after supplying their best customer, the home market. In the same period the increase of imports shows the good total of \$2,194,603, and here is a corresponding and proportionate gain in the revenue.

The figures revealed by these figures certainly point to an active state of trade—largely increased exports, greater imports, expanding revenue. These are the facts, which the people may make what they please of.

Mr. Lucas, who is being hoisted on the position of United States Senator from Kansas, complains that amid all the telegrams of congratulatory and good wishes he has received, not one has come from a woman. Is it possible, or a lack of appreciation regarding his honor conferred upon the man, as Mrs. Lucas puts it?

Mr. H. C. Frick, of Homestead, in his evidence before the commission, says that a firm employs 2000 men, of whom 35 per cent are American. That the loss of the firm in the recent troubles is beyond estimation, and that the men probably lost \$1,000,000 in wages.

Much is said from time to time about the automatic cruelty of the Russian Czar. If, however, the burning of the house this family to death is correct, some of the pressure must be barbarous enough to require autocracy.

For the second time the United States has failed in negotiating a reciprocity treaty with Mexico. The large country wants too much. It seems, however, that Canada has been more successful.

It is said that Delaney, native-born, took before beginning a battle. Other nations are more inclined that way in times of peace.

According to the October returns, the United States owes our banks \$22,000,000. Pretty good for a country in a state of commercial strophy.

There are 375,000 head of live cattle in Alberta, Saskatchewan and Manitoba. In 1885 there were only 154,000.

Hamilton, Ont., Dec. 4. James Connell, a truck driver, has been hit \$16,000 by an auto in Ohio.

LITTLE ROCK, Ark., Dec. 4.—At a meeting of Division No. 132, Brotherhood of Locomotive Engineers, here yesterday resolutions were adopted declaring that in the death of Jay Gould the locomotive engineers and organized labor have lost one of its greatest and most liberal benefactors, and that this community has lost a man who has done more to develop the great northwest than any one man. Sympathy was extended to Mr. Gould's family.
